WHEREAS, The Board has determined that a formal policy should be established to clearly illustrate the standards by which they determine the need to order a district wide revaluation or reassessment;

RESOLVED, The primary standard for determining the need for a revaluation or reassessment is the General Coefficient of Dispersion, the result of a one year comparison of all usable sales to assessments, as promulgated by the Director, Division of Taxation, annually, and that a general coefficient above 15 will be deemed unacceptable; and

RESOLVED, Equal weight will be afforded the Equalization Ratio, however calculated, and the Stratified and Segmented Coefficients of Deviation, and a district ratio below 85% or above 110% and a stratified and segmented coefficient above 15 in conjunction with the other primary, secondary, and tertiary factors, will be deemed unacceptable; and
